

Research Study

Indigenous Harm Reduction and COVID-19

CAAN & Dr. Peter AIDS Foundation

Do you provide harm reduction services?

Or are you First Nation, Inuit, or Métis and use harm reduction services?

Do you know how harm reduction programs and Indigenous harm reduction programs have changed during COVID-19?

Would you like to share your experience that will contribute to a resource guide for service providers?

If yes, we would like to speak with you!

We are holding 5 regional sharing circles to learn more about the changes to harm reduction services during the COVID-19 pandemic.

We are especially interested in understanding the access to or availability of Indigenous harm reduction programming.

Prairie Sharing Circle

Tuesday May 24- 1 pm

Virtual- on Zoom

1- 1.5 hour(s)

\$30 honorarium

To learn more about the study, or to participate, please contact the research coordinators via email: caterinak@caan.ca or sswann@drpeter.org
